

BrainAbility

BETTER BRAIN. BETTER TEAM. BETTER BUSINESS.

Know Your Cognitive Status

BETTER THINKING IS EVERYONE'S BUSINESS

Your Cognitive Profile Impacts Your Performance

We all have different Cognitive Profiles influenced by:

- Genetics
- Our Education
- Who we have grown up with
- Our Health Status
- Age

and/or any differentiating factor that have impacted your life journey.

Our ability to learn, remember, compete and excel in life is impacted by how well our brain functions.

Knowing your Cognitive Status enables you to make the right decisions with regards to what you should do next.

The 4th Industrial Revolution (4IR) - Cognitive Impact

We are all competing for opportunities in the New Economy.

Critical to the 4IR requirement are:

- Hard things to be mastered very quickly
- To be able to produce newly mastered skills at an elite level of quality and quantity

Are you up for the challenge?

Know your Cognitive Status. Control your FUTURE.

Where to start?

The Gibson Test of Cognitive skills is based on the individual cognitive assessment as completed by a specific individual; this allows for an immediate understanding of the individual's future-readiness.
